The **best contractors** use
only the **best products.**

Eaton is Always On your side when it comes to industry-leading technology, reliable, efficient, and safe residential electrical products.

We can deliver you code-complaint and innovative technology that connects, protects and efficiently manages your customer's electrical loads. We provide electrical solutions from the service entrance to the wall plate.

Count on us for the safest, most dependable residential electrical products, with Eaton you are always on.

Safety

Products designed for maximum safety, code-compliant, and features that help ensure a long life of safe operation.

- Arc fault breakers and receptacles help reduce the risk of home fires
- Ground fault self-test breakers and receptacles reduce the risk of shock in wet, and damp locations
- Surge products that protect against the damaging effects of electrical surges

Reliability

Our products not only meet, but exceed the most stringent standards and UL® requirements.

- Galvanized enclosures provide longevity in damp locations
- Copper bussing provides superior conductivity
- Limited lifetime warranties provide the homeowner comfort and peace of mind

Efficiency

Reduced installation time and power usage helps control costs. Eaton products are designed to be more efficient to operate and install.

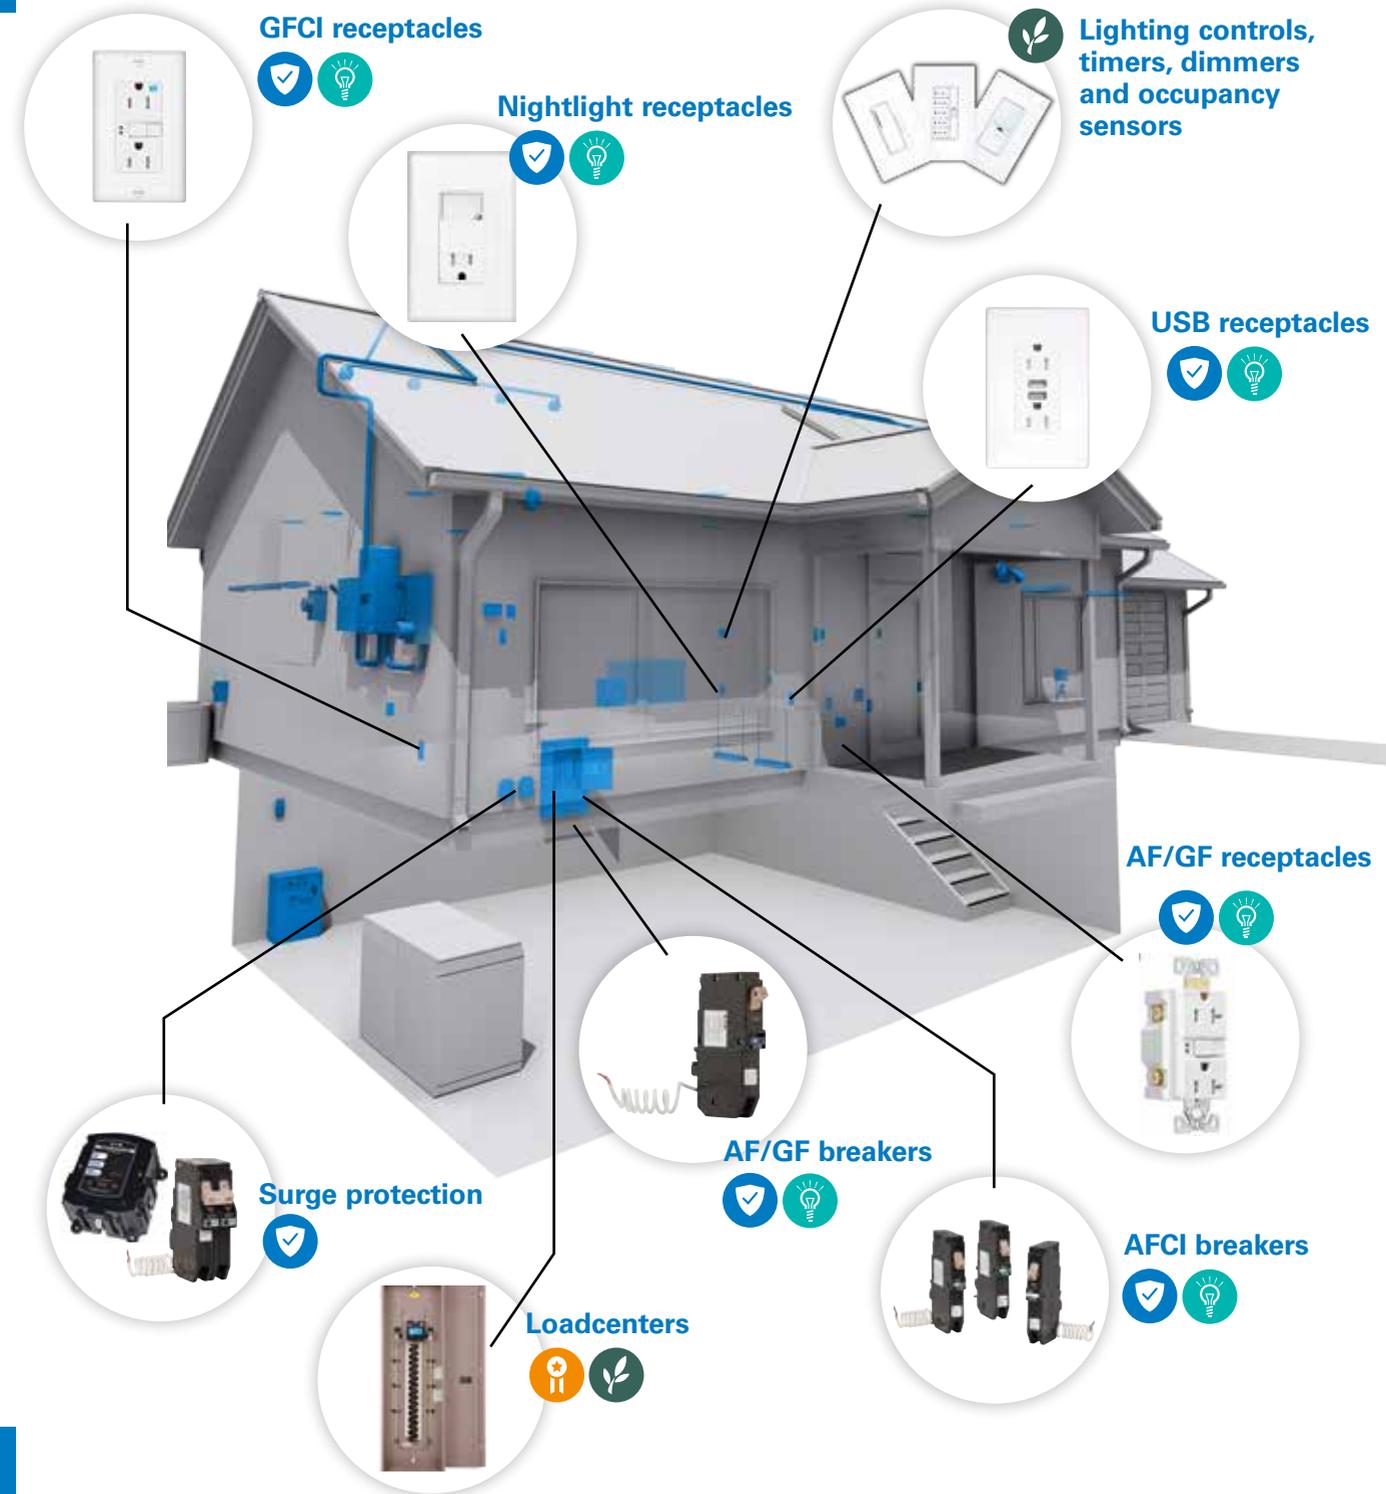

- Plug-on, and Quick Connect neutral technology increases productivity by providing you quick and easy installation
- Surge installed loadcenters provide you time savings
- Full line of lighting control products to help reduce the homeowner's energy usage

Technology

Eaton has a heritage of being on the leading edge of technology, including the first in our industry to use integrated USB devices. Our products are designed to allow interoperability between various systems.

- Industry-leading LED diagnostics provide you easy troubleshooting, while eliminating downtime
- Trip-flag indication provides ease of troubleshooting and identification of electrical faults
- Only manufacturer to offer both Arc Fault/ Ground Fault circuit breakers and receptacles

For more information on Eaton's residential products and solutions, please visit Eaton.com/AlwaysOn.

All wiring device products can be equipped with either tamper resistant, or tamper/weather resistant features.
